Site Area

What is the site area?
0.96
Scale
Hectares
Does your proposal involve the construction of a new building which would result in the loss or gain of public open space? ○ Yes ⊙ No
Description of the Proposal
Description
Please describe the proposed development including any change of use
"Installation of 1,420 ground mounted PV panels, associated inverter / battery storage container, fencing, landscaping and other ancillary works at Dyfed-Powys Police Headquarters, Llangunnor, Carmarthen."
Has the work or change of use already started?
○ Yes ⊙ No
Existing Use
Please describe the current use of the site
Private green space
Is the site currently vacant?
YesNo
If Yes, please describe the last use of the site
N/A
When did this use end (if known)?
dd/mm/yyyy
Does the proposal involve any of the following?
Land which is known or suspected to be contaminated for all or part of the site ○ Yes ⊙ No
A proposed use that would be particularly vulnerable to the presence of contamination ○ Yes ⊙ No
Application advice
If you have said Yes to any of the above, you will need to submit an appropriate contamination assessment.

Does your proposal involve the construction of a new building?
○ Yes
⊗ No
Materials
Does the proposed development require any materials to be used in the build?
✓ Yes◯ No
Please provide a description of existing and proposed materials and finishes to be used in the build (including type, colour and name for each material)
Type:
Other Other (please specify): Solar Panel Specification
Existing materials and finishes:
Proposed materials and finishes:
Please see Solar Panel Specification Sheet
Type:
Boundary treatments (e.g. fences, walls)
Existing materials and finishes:
N/A
Proposed materials and finishes: Please see proposed Layout Plan
Are you supplying additional information on submitted plans, drawings or a design and access statement?
○ No
If Yes, please state references for the plans, drawings and/or design and access statement
Please see Combined Planning, Design and Access Statement, and supplied drawings.
Pedestrian and Vehicle Access, Roads and Rights of Way
Is a new or altered vehicle or pedestrian access proposed to or from the public highway?
○ Yes ② No
Are there any new public roads to be provided within the site?
○ Yes② No
Are there any new public rights of way to be provided within or adjacent to the site?
○Yes
⊙ No

Please show details of any existing or proposed rights of way on or adjacent to the sits, as well as any alterations to pedestrian and vehicle access, on your plans or drawings. Vehicle Parking Is well-the parking relevant to this proposed? Yes No Trees and Hedges Are there trees or hedges on the proposed development site? Yes No And/or. Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? Yes No If Yes to either or both of the above, you will need to provide a full free survey with accompanying plan before your application can be determined. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current "BSS837: Trees in relation to design, demolition and construction - Recommendations* Assessment of Flood Risk Is the site within an area at disk of ifooding? Yes No Please to the Well-Government Applor Mice website Is your proposal within 20 metres of a watercourse (e.g. river: stream or bock)? Yes No Will the proposal increase the flood risk elsewhere? Yes No From 7 January 2019, all new developments of more than 1 dwelling house or where the construction area is 100 square metres or more, require Sustainable Drainage Systems (SuD9) for surface water designed and but in accordance with the Well-Minister's Estatutory SubStatination SuD9 Schemes must be approved by your local authority acting in its SuD9 Approving Body (SAB) role, Please contact your local authority for details of how to apply. How will surface water be disposed of? Substatinable drainage system Estating water course Soakaway	O Yes

Biodiversity and Geological Conservation
To assist in answering the following questions refer to the help text. The help text provides further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.
Having referred to the help text, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?
a) Protected and priority species
○ Yes, on the development site○ Yes, on land adjacent to or near the proposed development② No
b) Designated sites, important habitats or other biodiversity features
 Yes, on the development site Yes, on land adjacent to or near the proposed development No
c) Features of geological conservation importance
 Yes, on the development site Yes, on land adjacent to or near the proposed development No
Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.

Pre-application Advice	

Is the proposal for a waste management development?

Has pre-application advice been sought from the local planning authority about this application?
✓ Yes○ No
If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):
Officer name:
Title
First Name
Helen
Surname
Rice
Reference
PRE/01938
Date (must be pre-application submission)
01/01/2024
Details of the pre-application advice received
In general it is considered that there is policy support for the proposed installation subject to receiving the required justification for the proposal having regard to its location outside the defined settlement boundary as required by Policy RE3 of the LDP. There are other matters that would also need to be addressed through the submission of supporting plans, documents and assessments in particular relating to landscape and visual impacts, glint and glare, ecological interests, highway safety and drainage.
Authority Employee/Member
With respect to the Authority, is the applicant or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member Do any of these statements apply to you?
