

# SAMPLE RACK CONFIGURATIONS

**SAMPLE NARROW AISLE RACK CONFIGURATION**

8' - 7" AISLE, GENERALLY

**SAMPLE MEDIUM AISLE RACK CONFIGURATION**

10' - 0" AISLE, GENERALLY

RECEIVE / SHIP STAGING AREA (Typ.)

33'-5"  
CLEAR HEIGHT  
28'-3"  
CLEAR HEIGHT

**PARKSHORE PALLET CAPACITY COMPARISON**

The following are estimated pallet capacities for the sample single deep selective rack configurations shown:

Configuration	Clear Height Area		Racked Storage		Total Capacity	
	Clear Height	Area	Levels	Positions	Positions	Positions
NARROW WORKING AISLE OPTION (8'-7" Aisle, Generally)	28'-3"		4	Approx. 4,300	Approx. 4,300	Approx. 4,300
	33'-5"		5	Approx. 6,240	Approx. 6,240	Approx. 6,240
		<b>TOTAL CAPACITY</b>			<b>Approx. 10,540 Pallet Positions</b>	
MEDIUM WORKING AISLE OPTION (10'-0" Aisle, Generally)	28'-3"		4	Approx. 3,590	Approx. 3,590	Approx. 3,590
	33'-5"		5	Approx. 5,230	Approx. 5,230	Approx. 5,230
		<b>TOTAL CAPACITY</b>			<b>Approx. 8,820 Pallet Positions</b>	
WIDER WORKING AISLE OPTION (10'-9" Aisle, Generally)	28'-3"		4	Approx. 3,240	Approx. 3,240	Approx. 3,240
	33'-5"		5	Approx. 4,540	Approx. 4,540	Approx. 4,540
		<b>TOTAL CAPACITY</b>			<b>Approx. 7,780 Pallet Positions</b>	

Capacities were estimated based on an average pallet height of 63" (including pallet), with adequate beam height, lift-off, and top clearance allowances. Column interference losses are included where applicable.

**OFFICE AREA**

10' - 9" AISLE, GENERALLY

**SAMPLE WIDER AISLE RACK CONFIGURATION**
