The CBRE National Apartment Group-BC team is pleased to present the exceptional opportunity to acquire the **French Court Apartments**, a three-storey, 39-suite rental apartment building prominently situated in the heart of Marpole, one of Vancouver’s most desirable neighbourhoods. This well-maintained rental property is just steps from the Granville Street commercial corridor that offers an abundance of tenant friendly amenities including: grocery, a variety of stores and services, a cross section of local restaurants, and there are numerous schools and recreation located in the immediate area. The subject property is also just steps from bus transit service, providing quick and efficient access to downtown Vancouver and other surrounding areas.

Set on a picturesque, tree-lined street, the French Court features an attractive “Colonial style” design, that features a large arched front entrance that leads to an open private courtyard, which is complimented with a variety of potted shrubs and decorative foliage. The property comprises a well-balanced suite mix, with more than half of the units updated to a high quality standard in recent years by the current Owner. The French Court is unique in that all suites include electric baseboard heat, as well as their own individual hot water tanks, which have all recently been replaced in accordance with the Owner’s capital improvement plan. Heat and hot water are separately metered and paid for by the tenants, which makes this a very efficient and lower cost property to own and operate.

Existing rents throughout the building are approximately 40% below current market, providing purchasers the opportunity to increase rents on turnover and grow cash flow and overall yield on their investment. Over the last few years, rents in the Marpole neighbourhood have experienced consistent rental appreciation due to increased demand from tenants attracted to the slightly more affordable rents when compared to other Vancouver neighbourhoods, as well as the areas improved transit service and the abundance of commercial amenities.
